HEALTH CRUSADE IN GRAYLING SCHOOLS

Two hundred and ninety-seven Grayling boys and girls are brushing their teeth and cleaning their finger nails, not only because Mother insists on these trivial details, but because such rites are a part of their training as candidates for health knighthood.

A one hundred per cent enrollment in the Modern Health Crusade was enlisted in the second to the sixth grades of the Grayling schools, when Miss Huldah Jane Coon, state Crusade executive, visited Grayling recently.

The Health Crusade is a system of practical hygiene for school children which is under the direction of the Michigan Tuberculosis Association. From the children's point of view the Crusade ranks as a glorious game, but since it makes the routine performance of health duties the condition of knight-hood, educators recognize it as one of the best means of establishing correct habits of living.

The Grayling Crusaders are enlisted for a special five weeks Crusade during the spring term in preparation for a longer Crusade next year. John W. Payne, commissioner of schools, has expressed himself as much in favor of the Crusade. He plans to introduce it in the schools of Frederic next year.

ERNEST COWELL.

Ernest F. Cowell, son of Mrs. Mary Turner, passed away at his home at 9:40 o'clock Tuesday morning, after an illness of three years' duration, two years of which time he was under the doctor's care. Less than a year ago he suffered a paralytic stroke, which rendered him helpless for a time, but from which he recovered so much as to be able to be up and around his home. Within the last few months, he has been the victim of numerous attacks of the disease which put him in a most feeble condition.

The deceased was born in Canada, November 21, 1881. When he was a year and a half old his parents came to Grayling from Canada. He was educated in the Grayling schools and most of his life was spent in Grayling.

Those surviving the deceased are his mother, a sister and three brothers, Mrs. Sarah Hiar and Walter Cowell of this place, Charles E. of Chicago, and George E. of the Soo. Also two half brothers, John of Los Angeles, Calif., and James M. of St. Davids, Canada.

The funeral is being held this afternoon with services at the home, conducted by Rev. Hunter of Frederic. Charles R. Cowell of Chicago, is expected to come to attend the funeral. The remaining members of the family are extended the sympathy of their friends in their bereavement.

HOSPITAL DAY—SAT. MAY 12

AUTO PARADE—BALL GAME—DANCE.

The stage is all set for Hospital day, Saturday, May 12th when the people of Grayling and surrounding communities will celebrate the day by presenting a program of entertainment that should appeal to both young and not-so-young.

PROGRAM OF THE DAY.

Afternoon.

1:00—Music. Grayling Citizens Band
1:30—Auto Parade. By Everyone
2:30—Ball Game. Grayling vs. a Good Team
7:30—Musical Program. At School House
8:30—Dance at School Gymnasium. Band Orchestra
9 to 12—Lunch Served. Price 15c

During the day the Sisters at Mercy Hospital will be pleased to receive visitors. Everyone is invited to call and no doubt there are many patients there who will be glad to receive a sympathetic smile. In our edition of last week this paper told quite plainly of some of the conditions that are now confronting Mercy Hospital. It hardly seems necessary to repeat them for our readers. However we wish to impress it upon the minds of the people that unless financial aid comes to Mercy Hospital there is no doubt but that institution will have to be closed.

Not only are finances needed but also students are needed to take up training in the Hospital Nurses training school. It has proven in many instances that girls from the more humble homes have made the most efficient nurses, but because of the small remuneration that hospitals that are not generously endowed are able to pay girls in training, many such are not able to spend three years during the training period because of lack of funds for personal expenses. It is hoped that the receipts from the base ball game and dance will bring in sufficient money by which a fund may be established with which to pay student nurses a salary.

If this can be accomplished there is no doubt but that there will be plenty of enrollments in the training school. The remuneration for trained nurses is high and enable them to draw good pay. During the twelve years that Mercy Hospital has been in operation every nurse that has completed the training school course has passed the State examination; there hasn't been a single failure. This is partly due to the fact that they receive more personal instruction and practical training than is usually accorded in larger hospitals. Here in a very short time students are given practical training.

Investigation has also proven that room rates in Grayling Hospital are lower than in other hospitals, and with the steadily increase in cost of operating a hospital it cannot continue without some outside financial aid.

It is hoped that the public will get back of this movement and help by buying tickets to the dance, whether one goes or not; buy anyway. Also don't forget the Base Ball game. Your money will help a good cause. Mayor Canfield has proclaimed Saturday afternoon a half holiday. Take advantage of it and join in the festivities of the day.

AUTO PARADE.

The auto parade will form at 1:30 p. m. near the McKay House near the corner of Norway and Ogden streets. The parade will pass thru the business section of the town at about 2:00 p. m. This is going to be well worth everyone's time. Don't forget that the school children will be in the parade with posters and banners.

AUTO OWNERS are requested to get into line with their cars, don't be a sightseer only that day—be one of the actors as well.

LETTER FROM FATHER RIENS.

Grand Rapids, Michigan, May 8, 1923.

Mr. T. W. Hanson, President,

Grayling, Michigan.

My dear Friend "Tee":

I see by the "Crawford Avalanche" that the people of Grayling are putting on a DRIVE for the purpose of keeping Mercy Hospital in their midst. I am pleased to see this, for I think it would prove a calamity to close this most worthy institution in your midst. I know from personal experience what good this institution has done and will do in the future. I am inclosing my check for \$25.00 to help the good cause—I wish I could send a check of \$25,000.00—but every little bit helps. I trust and pray that the DRIVE will go over BIG—and I know it will; for Grayling and its good people never were SLACKERS—they were ALWAYS there with the GOODS!

"Tee", my heart is still in dear "Old Grayling". "The only Town on the Map". Many times did I wish and still wish that I was back to the "Jack Pines"—the land of cheer and happiness—where life is worth living; but we can not always have what we want; so I am here and will do my duty in the best manner possible. I assure you, however, that my best wishes go out to you and the faithful workers in making this Drive a success. We had a drive here for the new Buterworth Hospital and raised about \$3,000,000.00. We need Hospitals and need them EVERYWHERE.

With best personal wishes to you, Tee, I am

Sincerely yours, (Rev.) John J. Riens.

BETTER THAN GALLI CURCI.

Music lovers attending the Ann Arbor Festival are looking forward with anticipation to hearing the sensational soprano of the Chicago Civic Opera who for the past four seasons has been rivalling Galli Curci and recently has been recording some remarkable successes in the concert field.

She achieved another outstanding triumph last Wednesday at the Newark Festival, the Newark Ledger commenting as follows: "Take Galli Curci's facility and clarity when she was in her prime and infuse it with a human sensuousness that Galli Curci never had and you have the adorable art of Florence Macbeth. This American born and

American trained singer in addition to a voice of natural charm, has every quality of refined interpretation."

Having Macbeth in the roster of splendid artists appearing in the Festival will do much to make this year's festival the best in the history of Ann Arbor.

COMING.

SATURDAY HALF HOLIDAY

Proclamation by the Mayor

HOSPITAL DAY—SATURDAY, MAY 12.

Whereupon President Harding has designated Saturday, May 12th as National Hospital Day, and inasmuch as the citizens of Grayling have planned to celebrate the day in Grayling in honor of Mercy Hospital of our city, where there will be a program of entertainment, THEREFORE, I, president of our village, hereby proclaim Saturday afternoon a half holiday, and urge that the people of our city enter into the spirit of the day and take time to pay their respects to the Hospital, with a visit, and also enter into the festivities of the day and make it a day of tender sympathies and of rejoicing. And let us show by our acts that we approve and appreciate the noble work that our Hospital is doing. And let everyone open their purse and give to the cause, as generously as their finances may permit.

Given under my hand and the seal of the Village of Grayling this 7th day of May, A. D. 1923.

Charles A. Canfield, Village President.

WOLVERINE ASS'N STAR CHAPTERS

ONE OF FINEST GATHERINGS EVER HELD IN GRAYLING.

The annual convention of the Wolverine Association of Chapters of the Order of the Eastern Star was held in Grayling Monday afternoon and evening, May 7th. The meetings took place at the Masonic Temple.

Early in the morning delegates began to arrive and Worthy Matron Irene Simpson and her associate officers and committees were very busy receiving them. Some came by train and many by autos. Chapters from the following cities were represented: Mackinaw City, Wolverine, Cheboygan, Gaylord, Onaway, West Branch, Rose City.

The meetings were presided over by Mrs. Grace Pregitzer of Onaway, president of the association. Among the distinguished guests present was Mrs. Sangster of Cheboygan, worthy grand matron of Michigan.

In the afternoon there was a business meeting and election of officers for the ensuing year. The newly elected officers are as follows:

Pres.—Mrs. Amanda Curnalia, Roscommon.

Vice Pres.—M. A. Bates, Grayling.

2nd Vice Pres.—Mrs. Irene Simpson, Grayling.

Sec'y.—Miss Ruth Gaffney, Roscommon.

Treas.—Mrs. Lena Ford, Gaylord.

Interpersed in the program a few musical numbers were rendered. There was a violin solo by Miss Kathryn Clark, vocal solo by Mrs. J. J. Taylor, piano solo by Prof. Fuller, and also several recitations by Mrs. Pregitzer. All numbers were greatly enjoyed. The readings rendered by Mrs. Pregitzer were especially delightful, and showed excellent talent and training.

A banquet served at 6:00 p. m. in the Masonic dining room was especially well enjoyed. Mrs. Carl Englund was caterer and prepared and served the banquet, and her efforts received generous praise. There was Swiss steak, mashed potatoes, and gravy, head lettuce, peas, rolls, butter, cakes and coffee. There were 135 persons served.

In the evening initiatory work was conferred upon Misses Lola Klingensmith and Vera Matson of Grayling. The offices were filled by officers selected from among the visiting chapters. The initiatory work was well done as may be expected, and was nicely complemented by the Worthy Grand matron, who followed the ceremonies with a lecture and school of instruction.

The beautiful floral degree of the order was conferred by the officers of Grayling chapter, who are generally recognized as one of the most efficient teams in that degree work of any in Michigan.

The visit of the delegates was brief and did not afford the home people an opportunity of showing the visitors many of the attractions of our city and surrounding country. The delegates were enthusiastic over the entertainment accorded them and all left with a warm feeling for Grayling.

This was one of the most important gatherings ever held in Grayling, and their coming here for their annual meeting was a fine compliment to our city.

NOTICE.

The Home Guards will hold a social in the Sunday School room of the M. E. Church on Friday, May 11, at 7:00 p. m. Admission 10c, to raise money for Home Mission work. Games and refreshments. Members bring mite boxes and dues. Everyone invited.

BOARD OF TRADE DISCUSS MUSIC AT TODAY'S LUNCHEON.

A musical program was presented at the noonday luncheon of the Board of Trade this (Thursday) noon. The program was in charge of Prof. C. M. Fuller, who thruout the dinner played several piano selections. Prof. Fuller is a master of the piano and it is always a delight to listen to his music.

After the banquet Prof. Fuller announced the program, which was as follows: Dr. C. R. Keyport spoke on the "Influence of music in the home." Supt. B. E. Smith talked of the "Moral influence of music."

Mrs. J. I. Love sang a vocal solo and several chorus songs were sung by the banqueters, and the meeting ended with the singing of the Star Spangled Banner. This was a decided change from the usual programs and was greatly enjoyed by all who were present.

ENGRAVER SETS NEW RECORD

Washington Man Has Carved Picture of the National Capitol on a Pinhead.

The famous pinhead with the Lord's prayer thereon must now bow down before two works of engraving made by a Washington man, who has inscribed on two ordinary pinheads the United States capitol and a profile of President Harding, with the name "Warren G. Harding."

SIMPLE STATEMENT OF FACT

Explanation Showed That Both Manager and His Assistant Had Told the Truth.

With a firm tread and a masterful air the woman stepped into the florist's shop. After gazing about for some moments her choice fell upon a green palm in an ornamental pot. The assistant approached with deference.

August C. Halbert is the creator of these two minute pieces of art, and what is more, he has just completed the construction of a machine and die that will transfer the portrait of the President onto the heads of an unlimited number of pins.

"What it grew well in the sunshine?" she inquired.

"Yes, madam."

"Don't say it will if it won't," she snapped. "If it does well in the sun, will the shade hurt it?"

"What?" she exclaimed. "You tell me it will thrive equally well in sunshine or shade? Young man, you don't know your business. Fetch the manager."

The manager was summoned. Even he quailed before her; but, all the

microscope, and used the regular engraving tools, but those of the most delicate type.

Excellent idea.

"This car has all the latest attachments, sir," said the salesman, "cigar holder, dome lights, spot lights, foot

"Well and good," broke in Mr. Crump, "but I want a car with an attachment on the bumper that releases a bouquet of flowers when it comes in contact with a pedestrian."

Statistics show that if a man and a woman are riding together in a train which meets with disaster, the woman has more chances of escaping death than the man.

Over \$7500.00 for Grape-Nuts Recipes

The Postum Cereal Company will buy not less than 101 Recipes or suggestions for new Uses of Grape-Nuts, paying \$50.00 for each one accepted. And in addition—

Good Housekeeping Institute, conducted by Good Housekeeping Magazine, will decide an award of \$2500.00 for the best four of the 101 or more Recipes or suggestions for new Uses of Grape-Nuts, so purchased:

\$1000.00 for the 1st selection \$750.00 for the 2nd selection

\$500.00 for the 3rd selection \$250.00 for the 4th selection

Read carefully the terms of this offer so that you may have the fullest opportunity to share in its benefits. The conditions are so simple and fair that every housewife in the United States can take part in this National Recipe Festival!

There Is No Other Food Like Grape-Nuts

WHILE practically every man, woman and child in the English-speaking world knows Grape-Nuts as a delicious, nourishing and wholesome cereal, and while it is common knowledge that Grape-Nuts with milk or cream is a complete food, many housewives do not know of the appetizing and economical dishes that can be prepared with Grape-Nuts. It lends itself, we believe, to more uses than any other cereal. The convenience and economy of Grape-Nuts, and the flavor, zest and wholesomeness which it imparts to other food, make it invaluable in every home. Frequently we receive interesting letters from women throughout the country, telling about the attractive dishes they make with Grape-Nuts—delicious puddings, salads, dress-

ings for fowls, etc. No doubt there are thousands of women who are finding varied uses for Grape-Nuts in their home cooking, and even more thousands who will be glad to learn of those varied uses; for while we all cling to old favorite dishes, we also welcome and enjoy a change.

So that is the thought back of our offer of more than \$7500.00 in cash for new ways of using Grape-Nuts. To those women who are already using Grape-Nuts in various ways, other than as a breakfast cereal or in the recipes given here, and to those women who would like to try their hand at developing some new way to use Grape-Nuts, we offer to buy at \$50.00 each not less than 101 new Grape-Nuts Recipes. We plan to include these new Recipes in a beautifully illustrated cook book.

What Is Grape-Nuts?

Grape-Nuts is a highly nutritious food in the form of crisp, golden granules. It contains the full complement of vitamins and minerals essential for building sturdy health. These elements are often lacking in the ordinary diet, chiefly through "over-refinement" in the preparation of food. No other food is so thoroughly baked as Grape-Nuts. More than 20 hours are consumed in the baking process which makes Grape-Nuts easy to digest, and also develops a natural sweetness from the grains themselves. The form and crispness of Grape-Nuts, however, are not a decided advantage because this not only provides proper exercise for the teeth, but makes for good digestion.

Every housewife in the Land should take advantage of this extraordinary opportunity to earn the tidy sum of \$50.00 by a little pleasant and educational effort in her own home. Also the fair and equal chance to secure one of the liberal awards to be made by Good Housekeeping Institute. Moreover, there's the greater knowledge of the value of Grape-Nuts, not only as a delicious breakfast cereal, but in the preparation of a variety of appetizing dishes that add to the health and pleasure of the whole family.

Where you don't find Grape-Nuts, you won't find people like "There's a Reason" Sold by grocers everywhere!

Conditions Governing the Purchase of, and Awards for Grape-Nuts Recipes

The Postum Cereal Company will buy not less than 101 Recipes or suggestions for new Uses of Grape-Nuts, paying \$50.00 for each one accepted. This offer is open to every person in the United States. Good Housekeeping Institute, conducted by Good Housekeeping Magazine, will decide an award of \$2500.00 for the best four of the 101 or more Recipes or suggestions for new Uses of Grape-Nuts, so purchased: \$1000.00 for the 1st selection; \$750.00 for the 2nd selection; \$500.00 for the 3rd selection; and \$250.00 for the 4th selection.

Recipes or suggestions for new uses submitted for purchase must not duplicate any of the Recipes printed in this announcement.

No Recipe will be purchased from anyone who has previously submitted a Recipe to the Postum Cereal Company, Inc., or Good Housekeeping Institute.

If more than one Recipe is offered, each must be written on a separate sheet. Write name and address plainly on each Recipe submitted.

As the award of a Recipe for each award offered, as

award identical in all respects with that tied for will be made to each one tied.

It is not necessary to purchase Grape-Nuts. A suitable quantity will be sent upon request to those desiring to submit recipes.

Your Recipe should state the exact number intended to be accepted. Recipes should be carefully checked to make sure that proportions and directions for preparing will bring best results.

Form of Recipe: First, write name of your Recipe at top sheet; underneath list all ingredients, using level measurements only; then the directions for preparing, worded simply and accurately. Do not use "first" or "second" etc.

In considering Recipes for purchase, and for awards by Good Housekeeping Institute, account will be taken of the following points:

(a) Feasibility. (b) Simplicity and economy. (c) Attractiveness and interest of presentation of recipe.

Announcement of the Recipes purchased, and Awards by Good Housekeeping Institute, will be made in January Good Housekeeping Magazine. Recipes submitted to the Postum Cereal Company for purchase will not be returned.

Below are ten Recipes showing a few of the many appetizing dishes that can be made with Grape-Nuts. Read them over, try some of them, and then you will find it easy to work out a new Recipe or think of a new use for Grape-Nuts, that we may purchase. And remember, your Recipe or suggestion for new use of Grape-Nuts may also merit one of the large awards.

GRAPE-NUTS Ice Cream
Prepare plain flavored ice cream in the usual way. Just before the cream hardens in freezing, add Grape-Nuts as they come from the package, in the proportion of one-half cup of Grape-Nuts to one quart of ice cream. If you have ice cream ready made, add Grape-Nuts to it, one of our meats. You'll find the resulting flavor unique.

GRAPE-NUTS Salad
1 cup Grape-Nuts 2 cups bananas
1 cup orange juice 2 cups cream
1 cup cubed pineapple 2 cups lemon juice
1 cup raisins 2 cups sugar
Cut up the fruit, add lemon juice, mix with Grape-Nuts, and serve on bed of lettuce with Cream Salad Dressing. Make four to six portions.

GRAPE-NUTS Six Minute Pudding
1 cup Grape-Nuts 1/2 cup raisins
1/2 cup milk 1/2 cup sugar
1/2 cup water 1/2 cup butter
1/2 cup brown sugar 1/2 cup cinnamon
1/2 cup milk 1/2 cup vanilla
2 well-beaten eggs 1/2 cup salt
Cream shortening and sugar. Add milk and well-beaten eggs. Add well-sifted ingredients. Cook over steam until thick and bubbly. Add Grape-Nuts, and then the raisins. Heat thoroughly and mix with a spoon. Bake in a buttered dish for forty-five minutes in a slow oven. Serve as the main course at luncheon, supper, or with any fruit and water. Makes four to six portions.

GRAPE-NUTS Cheese Casserole
1/2 cup Grape-Nuts 1/2 cup butter
1/2 cup milk 1/2 cup American cheese
1/2 cup salt 1/2 cup paprika
1/2 cup onion 1/2 cup tomato
1/2 cup celery 1/2 cup pepper

Sophocles

Sophocles, the Greek tragic poet, was born in the Attic village of Colonus in 496 B. C. He received a good education, and at an early age gained the prize in music and gymnastics. He was fifteen when the battle of Salamis was fought, and for his remarkable beauty and skill in music he was chosen to lead the chorus which sang the paeon of victory. His first appearance as a dramatist was in 483 B. C., when, under remarkable circumstances, he had Aeschylus for his rival, and won the victory. The number of plays attributed to him without question, was 113, of which 81 were probably produced after the "Antigone." Seven only are extant, viz., "Antigone," "Electra," "Trachinian Women," "King Oedipus," "Ajax," "Philoctetes," and "Oedipus at Colonus."

Roman Remains in Britain.
Excavating for the foundation of a new factory to be erected at Keynsham, near Bristol, England, workmen recently unearthed Roman remains. The Daily Chronicle of London reports the discovery of coins, containing skeletons, a Roman needle about six inches long, a spoon and a brooch. The brooch is believed to have put the finishing touch upon the toga of a Roman gallant.

HOUNDS SPOILED HER SOLO
Impression Made by Young Songstress Quite Different From the One Intended.

I was spending the week-end with a friend of my mother's, who lived with her father's son-in-law, a large country estate. I was taking vocal lessons and took myself quite seriously. The morning after my arrival, seeing my host in the vicinity of the stables, I doctored myself in my best silk and tucker and sauntered to the garden, accompanied by two big hounds. From the corner of a watching eye, I saw my audience approaching, and I burst forth in my most successful song. Simultaneously the hounds lifted their voices in heaven, even as I, and joined me in a most hideous cry. My sense of humor came to my rescue, and I joined the master in his laughter, but I could have cried much more easily.—Chicago Tribune.

Harsh Criticism.

Senator Ashurst of New Mexico tells this story:
"The last story I know of is on my seat. It happened several years ago, and I was making a speech in a little town in New Mexico and the crowd, of course, was made up of women as well as men. I put on the front row was an old lady, and I noticed her following me literally every word I said. I launched into a defense of my policies, and, naturally, made the audience I might be expected to make in the political campaign. About to wind the end of the speech the old lady in front got up and started to leave."
"Sweetened wind" was all she said as she stalked out. The crowd roared! —New York Herald.

Protecting Alaskan Game.

New regulations for the protection of game in certain localities in Alaska have been approved by the secretary of agriculture, effective April 1, 1923. The only important change made was that eliminating certain stands in southeastern Alaska, on which the killing of deer was prohibited in the past. Kruzof Island, however, is still treated as a deer preserve. "The killing of mountain sheep and mountain goats by the hunters of the Kenai peninsula is prohibited until April 1, 1923. There still remains a closed season on deer west of longitude 141 degrees."

98 OUT OF EVERY 100 WOMEN BENEFITED

An Absolutely Reliable Statement Important to Every Woman

Remarkable Results Shown by a Nation Wide Canvass of Women Purchasers of Lydia E. Pinkham's Vegetable Compound. 50,000 Women Answer

For some time a circular has been enclosed with each bottle of our medicine bearing this question: "Have you received benefit from taking Lydia E. Pinkham's Vegetable Compound?"
Replies, to date, have been received from over 50,000 women answering that question.
98 per cent of which say YES. That means that 98 out of every 100 women who take the medicine for the ailments for which it is recommended are benefited by it.
This is a most remarkable record of efficiency. We doubt if any other medicine in the world equals it.
Think of it—only two women out of 100 received no benefit—98 successes out of a possible 100.
Did you ever hear anything like it? We must admit that we, ourselves, are astonished.
Such evidence should induce every woman suffering from any ailment peculiar to her sex to try Lydia E. Pinkham's Vegetable Compound and see if she can't be one of the 98. The Lydia E. Pinkham Medicine Co., Lynn, Mass.

WHY DRUGGISTS RECOMMEND SWAMP-ROOT

For many years druggists have watched with much interest the remarkable record maintained by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder medicine.
It is a physician's prescription. Swamp-Root is a strengthening medicine. It helps the kidneys, liver and bladder to do the work nature intended they should do.
Swamp-Root has stood the test of years. It is sold by all druggists and is so good it should help you. No other kidney medicine has so many friends.
Be sure to get Swamp-Root, and start treatment at once.
However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper advertisement.

An Appeal Suggested.

The eminent lawyer came back from court in something of a huff. "There had been some words with the judge," he muttered. "Upon entering his office the attorney took up his brief, pushed to the side the dictionary and began to search. 'I'm sorry to be bothered,'" he murmured. "The latter awaited developments. 'The dictionary,' stated the eminent lawyer, 'disagrees with my spelling of this word.'"
"In that case," suggested the equally eminent colleague, "take an appeal to the dictionary."
"The dictionary," stated the eminent lawyer, "disagrees with my spelling of this word." —Kansas City Star.

Why divide the family at breakfast?

WHY take coffee for yourself, while saying "No" to the children? It is true, as most parents are careful to explain, that little folks should not endanger health and growth through the drug element in coffee and tea, but—
Your health is valuable, too—and their desire for a hot drink with breakfast may be as great as yours.
There's complete satisfaction in Postum, and safety alike for young and old. Postum is a pure cereal beverage. It is coffee-like in color and flavor, but free from any element that can harm. Thousands who are now saying "No" to themselves as well as to the children, as a safeguard against coffee-ills, have found better comfort and better health, in Postum.

Your grocer sells Postum in two forms: Instant Postum (in tins) prepared instantly in the cup by the addition of boiling water. Postum Cereal (in packages) for those who prefer the flavor brought out by boiling fully 20 minutes. The cost of either is about one-half cent a cup.

ON GETTING AHEAD.

It is unfortunate that when most of us think of education we think of school. The greatest failure is that the measure of a man's education is the number of years he has spent in school.

You do not have to go to school to become educated.

Life is itself an education.

The man who is really alive knows more today than he knew yesterday.

The best school can do is to give us a schedule. The school can help us to organize our study, to check ourselves up, to hold our attention to a fixed line. But if we do not desire to learn, the school can teach us nothing.

The chief value of a school education is that it reduces out of a false sense of inferiority. In other words, it produces confidence.

Some of the highest minds known are college men. Some of the least educated men known are college men. They were exposed to education but it didn't take. Notwithstanding their four years in college they have remained uneducated.

The school is simply a point of departure. The best school can do is to give one a taste, an appetite, for the best things of life. The school can teach one how to study, how to read, how to analyze. But it cannot give one judgment, and that is the reason this quality is so rare.

Yet it would be foolish to suggest that school education is not a good investment whenever the average wages of illiterate and educated people are compared. The figures show the high average return on investing. Parents should give their children all the schooling they can afford or all the children will take.

DR. ROBERT B. HARKNESS

State Commander of the American Legion Who Plans Children's Billet for Children of Deceased Veterans.

LEGION TO OPEN ORPHANS' HOME

STATE COMMANDER HARKNESS PLANS NEW INSTITUTION NEAR OTTER LAKE

CHILDREN ARE TO BE ITS GUESTS

A CHILDREN'S BILLET for the orphans of Michigan's veterans of all wars will be the great constructive work of the American Legion in 1923, according to Dr. Robert B. Harkness, of Houghton, state commander.

This home will be located at Otter Lake, a beautiful site near the corner line of Ontonagon, Lake and Tuscola counties. It will be different from the usual child institution as is the American Legion hospital for tubercular veterans at Battle Creek, Legion officials say.

Wag it To Be Real Home.

Dr. Harkness, as state commander of the committee, wants the bill to be a real home for the children there, to be regarded as if they were his own.

He has been assisted in the planning of a suitable site and building by several local business and philanthropic individuals and plans also to receive memorial contributions from men and women who lost sons or other relatives in the Great War.

These funds, however, will be put to special purposes and the general expenses, according to Dr. Harkness, will be paid for by the Legion itself.

Was Formerly a Sanitarium.

The grounds and buildings for the proposed home were formerly used as a sanitarium. The grounds are amply large and the buildings of far better than average construction. Broad shady spaces afford excellent play spots for the children.

The Legion's greatest task, says Commander Harkness, "is to care for its disabled comrades and for the children and widows of the men who made the supreme sacrifice. Our hospital for tubercular patients at Battle Creek is our answer to our first duty and the orphanage at Otter Lake will fulfill our second one."

Plans for opening the home are not yet complete, but you want the names of the orphans of veterans whom we can help.

—But You Can't Ride on the Paint!

Imitation diamonds can be made to look so real and sparkle so brightly that it is difficult to tell them from the genuine. But try to sell one and you will find out its real worth in a flash. Same with automobiles. Weaknesses of construction in a closed car can be hidden, for a time, with paint and varnish and fancy fittings. But all is not quality that glitters.

You can't ride on the paint. And when you place such a car in the second hand market, you suffer a heavy depreciation because it lacked real-intrinsic value at the outset. Use will never improve a mediocre product.

The second hand floor is the melting pot for automobile values. Cars are stripped of artificial values and only inherent worth counts.

Motor car owners tell us that the trade-in value of any Studebaker car at the end of three or four or five years of useful life is greater than on any other car built today—the percentage of depreciation is the lowest.

No wonder the Studebaker Light-Six Sedan is the fastest selling quality Sedan in the world!

The name Studebaker stands for quality, durability, comfort and integrity.

FUNDS SOUGHT FOR GRAVES IN FRANCE

LEGION PLANNING ENDOWMENT FOR CARE OF FALLEN HEROES' MOUNDS

SHOULD KEEP MEMORY GREEN

To decorate the graves of the 500 Michigan deceased veterans who sleep the eternal sleep overseas, the American Legion of Michigan is raising a Memorial Day Fund. This money will all go into a \$100,000 endowment planned by the national organization of the Legion, which will provide an annual sum to care for the graves of these heroes in perpetuity.

This national fund will be expended in France and elsewhere overseas under the direction of Myron T. Herrick, ambassador to France. In all, there are 32,100 graves to be cared for. Two francs fifty centimes will decorate one grave once a year.

In Michigan, the campaign for this fund is led by Dr. Frank B. Broderick, state welfare officer. He will receive contributions either by check or in cash at his office at 214 Lincoln Building, Detroit, Michigan. All funds whether received by mail or from individuals in person will be receipted and strictly accounted for. No donations in excess of \$10 are requested, as the Legion feels that this collection should be a fund of the whole people.

"This money," says Dr. Broderick, "will be raised without a definite campaign as such. We hope that a simple appeal to the people of Michigan will bring to us more than ample funds to care for Michigan's quota. The question is, shall we honor on Memorial Day the memory of those boys who died for us, and who now sleep overseas."

"The United States government now maintains these graves, keeps them in splendid appearance. But the Legion wants each grave to have on Memorial Day a little, direct personal tribute from the people of the United States. Will Michigan do its share?"

Someone has discovered that it takes 140 nuts to hold a Ford together and only one to hold it in the road.

Be flush and the world is with you. Be broke and you must go it alone.

Dr. H. H. Pool of this city and Bertha C. Martin of Winnipeg, Canada, were united in marriage in Detroit Monday forenoon. It was a very informal wedding after which Dr. and Mrs. Pool departed at once for Grayling. Dr. Pool has been located in Grayling since last December and has already made a lot of warm friends.

Mrs. Pool is a graduate nurse of Lakeside hospital, Cleveland. For the present Dr. and Mrs. Pool will reside in the living rooms above the Burke garage. We are sure Mrs. Pool will be very welcome to our city.

The death of Brig. General Earl R. Stewart, of the Michigan National Guard, is very keenly felt in Grayling. General Stewart had been coming to Grayling camp many years and had a lot of warm friends here. He was always congenial and courteous and Grayling people appreciate the friendly feeling he had always shown them. We are deeply grieved over his untimely death, which occurred in Lansing May 1st. His probable successor will be Col. Wilson, who is very well known here, and is very highly esteemed.

Miss Leona Skinner, youngest daughter of Mr. and Mrs. John Skinner and Mr. John Papendick, son of Mr. and Mrs. C. F. Papendick, both of this city were united in marriage at Flint Wednesday evening of last week. The wedding took place at the home of the groom's brother, Allen Papendick, who with his wife, who was formerly Miss Amanda Force witnessed the ceremony. The groom has a position in Detroit where he has been employed for some time, and the young couple will make that city their home. They are extended the best wishes and congratulations of their Grayling friends.

State Forester Marcus Schauf was called to Whitehall, Michigan, Thursday of last week to address a troop of Chicago Boy Scouts on the subject of reforestation. Annually the Scout camp, consisting of several hundred members, all of Chicago, meet at Whitehall for a summer outing. This is located on White Lake near Lake Michigan. They have a camp of 380 acres and now they are to re-plant that area with pine. Last year 10,000 pine trees were planted by the boys and this year 12,000 more will be planted. Mr. Schauf says the boys are all enthusiastic over the work and were very attentive listeners to his remarks.

Frank and A. E. Michelson of Detroit and Carl Michelson of Mason are at Sunrise club on the Main stream. Besides enjoying the fishing they are preparing to reforest the lands belonging to the club. There are 40 acres in the parcel which is located on a beautiful spot just below the mouth of the South Branch river. These gentlemen spent several days during the past week clearing and burning the brush and slashings. In a few days they will receive from the Forestry department 6,000 pine trees for planting, which will be done under direction of State Forester Marcus Schauf of this city. The club will also plant 50 apple and other trees. Sunrise club is located in one of the most beautiful spots along the AuSable river, and with the improvements that are being made, makes it a very pleasant place to spend the summer season.

Tony Nelson is at Mercy hospital as the result of getting caught under a Ford tractor Monday afternoon, in the field known as the Fischer field. A workman had been busy in the field with a drag attached to the tractor when the latter became stuck in a mud hole, and so he went after Tony to get him out of his trouble. They disconnected the drag from the tractor and were making an attempt to get out of the mud hole, when the front of the tractor slipped up and turned over backwards, pinning Tony, who was in the driver's seat, underneath the machine. After a time, with the help of several men, the tractor was lifted releasing the victim, who said he was not badly hurt. He was persuaded to go to Mercy Hospital where he is getting along nicely. One of his legs was bruised and besides he received other bruises on his body as the result of the accident. It is believed he received no serious injury and probably will be able to be out and around in a few days.

Mrs. Elwood Jewell and Miss Planché Masters motored through from Detroit and are guests for a few weeks of Mrs. Ben Sherman at the Sherman farm in Frederic. The latter has returned to Frederic after spending the winter visiting at the home of her son Jerry and family here in Grayling and is now making her home with her daughter Mrs. Hugh McMillan, who during the winter came from Lincoln, Illinois and purchased the farm home of her mother.

The funeral of Mrs. Axel Peterson, who passed away at Mercy Hospital Wednesday, May 2nd, was held Saturday afternoon. A short service took place at the home followed by services at the Michigan Memorial church, conducted by Rev. W. L. Jones. There was a very large congregation of sorrowing relatives and friends in attendance at the funeral of the young woman, which with the abundance of flowers which covered the casket, showed the high esteem in which she was held in Grayling. Rev. Jones delivered a most impressive sermon and a choir consisting of Mrs. J. J. Love, Mrs. H. J. Gothro, and the Misses Gertrude Forrester and Marion Estabrook sang two beautiful hymns. Interment was in Elmwood cemetery. Those from out of the city, who came to be in attendance at the funeral were Jess Sales of Detroit, Mr. and Mrs. Irwin Mettett of Hillsdale, Mich. Guy Peterson of Johannesburg and Miss Clara Nelson of Royal Oak. The untimely demise of Mrs. Peterson, who was formerly Miss Charlotte Flagg, is keenly felt by the members of her family and among her large circle of friends.

Dr. and Mrs. Oscar Palmer arrived home Monday afternoon from Pasadena, Calif., where they spent the winter. They report that they hadn't seen any show since the spring of 1922 but dame nature did not intend that they should be cheated out of that privilege and on Wednesday morning there was a light covering of "The beautiful" as if for their benefit. They report having passed a most comfortable winter in the west. Both Dr. and Mrs. Palmer are feeling quite well in spite of their 30 years. They are planning upon returning to Pasadena to make their permanent home. Their many Grayling friends are happy to have them among them again. For nearly fifty years this has been their home, where, in their younger days, they took a most active part in community affairs. Mrs. Palmer was an indefatigable worker in the Presbyterian church up to within a few years ago; Dr. Palmer was the esteemed editor of the Avalanche for 30 years, retiring therefrom in the year 1911. He also was prosecuting attorney of Crawford county for 22 years, judge of probate four years, practiced medicine and surgery and also served his district in the State legislature. This venerable couple stand in high esteem of their hosts of Grayling friends who will wish for them during the twilight hours of their life here on this Earth, abundance of comfort and happiness.

Boys' English brown dress shoes at \$3.35. E. J. Olson.

The members of the Board of Supervisors and county officials will hold their regular monthly banquet at the City hotel this evening.

Next Sunday and Monday, May 13 and 14, at Opera House, see Cecil B. De Mille's super-feature "Adam's Rib." Also Larry Semon in "The Counter Jumper."

P. L. Michelson, F. C. Burden and O. S. Hawes of Detroit and E. J. Cornwell of Saginaw, are in the city for the regular monthly meeting of the stockholders of the local lumber companies.

Cameron Game and family left last Thursday for Marion to visit for a couple of weeks before going to Detroit to reside. The family have resided in Grayling about ten years during which time Mr. Game has been in the meat market business. Both Mr. and Mrs. Game leave many warm friends in Grayling.

Thorwald Peterson has completed his commercial course at Ferris Institute, Big Rapids, and has returned to Grayling. He has accepted a position in the office of the T. W. Hanson Lumber Co., as book-keeper. Miss Ingeborg Hanson is the stenographer for the same company.

May 14 to the 16th have been set aside as clean-up days in Grayling, and all property owners are urged to clean their respective premises of all rubbish and refuse. Street Commissioner Julius Nelson has been authorized to hire conveyances to call at the homes and remove the rubbish. It must be in a convenient place near the street.

The infield of the local base ball diamond is being fixed up so that it looks as though it is going to be one of the finest infields in Northern Michigan. Clay and other materials that go to make up a good diamond are being distributed on the grounds, and men have been busy the past two weeks getting it in readiness for the opening game.

Mrs. Edith Leighton, wife of Dr. Leighton of Frederic, and along a resident of Crawford county, having resided in both Frederic and Grayling for many years, passed away in Bay City Friday of last week. The remains were taken to her home in Frederic where the funeral was held Monday, with interment in Elmwood cemetery, Grayling.

About \$130.00 were taken in at the Base Ball team benefit dance given at the School gymnasium Thursday night of last week. There is going to be considerable expense in preparing the grounds for use and for the comfort of the people. While the receipts are not as large as it was hoped and expected they would be, yet it will enable the committees to get a good start. The first game of the season is scheduled for next Saturday the proceeds for which will be given to Mercy Hospital. Grayling is going to have a crack team again this year and it is only for the people to give them their support and we will be assured of good games all season.

OLD LOVELLS RESIDENT DIED.
Joseph Simms, aged 65 years, and a resident of Lovells for about 25 years, passed away at his home in that Village last Sunday, after having been ailing for some time. Mr. Simms has been road commissioner in that township for a good many years, having aided in building many of the roads in and around Lovells. Mrs. Simms is postmistress of the Lovells postoffice. They have resided on a small farm, and as their union was not blessed by a child their lives have been spent in each other's companionship. Mrs. Simms has the sympathy of her many friends in her bereavement in the loss of her helpmate. The remains were taken Tuesday to Owasco for burial.

Michigan Happenings

Declaring that the day of the 10 cent brand of canned foods and vegetables has largely passed, Charles G. Christensen, of Saginaw, president of the Michigan Retail Grocers' association, told the Michigan Grocers' association, last week, that quality is the paramount requirement of the public. The flavor of Michigan canned fruits was superior to any other he claimed. Advertising, he said, should create a demand which would more than absorb the state pack. He recommended a bright, catchy label.

Mrs. Abelle Pattinell Knowlton, widow of Professor Jerome C. Knowlton, former dean of the law school at the University of Michigan, died last week, after a second attack of pneumonia within three months. Mrs. Knowlton was a sister of the late Professor Albert Pattinell, at the time of his death professor of Greek at the University of Michigan, and the late Jackson Knowlton, for many years principal of the Ann Arbor high school. She was born in New Lisbon, N. Y., in 1855.

Jennings church was located on Acme trailer last week and transported more than seven miles from Cadillac toward Marquette. The structure is 26 feet wide 50 feet long and 50 feet to the ridge. The steeple is 60 feet high and the lead weighed 50 tons. The building was so much altered than its width that the trailer resembled a roller skate. The swamp road still is soft in places and considerable difficulty was experienced in moving the building.

Mrs. Laura C. Aldrich, 86 years old, active in Michigan Methodist church, died at the home of her son, Mr. McKee. She was the widow of the Aldrich Deaconess and Esther, home of Grand Rapids, the second of her kind in the United States and with her husband, the late Rev. William J. Aldrich, founded Methodist churches in Muskegon, Grand Rapids and Big Rapids. She was known to practically every church in the state.

Colonel John H. Schoulen, commanding the 126th Infantry, Michigan National Guard, made public last week plans to double the size of the Grand Rapids armory. The addition he explained, will cost about \$100,000. The ten units to have a strength of 250 men. One of the largest armories in the state will be included in the plans which will enable Grand Rapids to hold for some of the country's largest conventions.

Henry J. Mann, 71 years old, violin player, 30 years teacher and all round musician, died last week from pneumonia. Mann was the last member of the well known Mann family in the state. He was born in New York state and came to Michigan with his parents when a young child. He had a violin in his possession more than 15 years old.

As far as Grand Traverse and neighboring counties are concerned, a day's catch of trout will be limited to 20 and 25 will be permitted in the season. Secretary Albert H. Smith of the state conservation commission said here last week. He said that the state day limit is 25 and the bag limit 40.

Falling 25 feet from a tree in a water field, Joseph May, 21 years old, of Grand Rapids, was killed last week. He was working at the time of the fall. The cause of the fall was not known.

The bi-annual convention of the Michigan State Nurses' association will be held in St. Joseph, May 23, 24, 25, as the guests of the Berrien County Nurses. Mrs. Barbara H. Bartlett, professor of Public Health Nursing in the University of Michigan, will preside.

The Oakland board of supervisors receded from its policy that no water construction should be undertaken this year and authorized to road commissioners to proceed with seven miles of pavement on the Nine-mile road, starting at the Four-mile line.

John Schwitter, of Three Rivers, celebrated his hundredth anniversary last week. He is believed to be the oldest person in St. Joseph county.

Mrs. Virginia Crittenden, 78, died last week. She came to Portland 42 years ago.

Harvey Fuller, 17 years old, of Jackson, lost his right foot last week when he fell under a D. T. and I. freight on which he was attempting to steal a ride to Tecumseh. The young man had been looking for work.

James E. Davidson, of Bay City, who has served more than 20 years as a member of the Republican State Central committee, has been named as national Republican committee man from Michigan. He succeeds the late Fred M. Warner.

Word has been received here last week of the death in Grand Rapids, of Professor Herbert N. Schmidt, member of the faculty of the University of Michigan. Professor Schmidt was on leave of absence this year, but had expected to return to his duties next fall.

The body of Ernest Krumbeiner, about 75 years old, missing for some time, was found in the Saginaw river, near Saginaw last week. He had no relatives or friends, and is believed to have ended his own life.

The State Senate has acted favorably on the McEachron bill which appropriates \$3,000 for the purpose of removing the monument of Gen. George A. Custer from its present site in the center of Monroe to a more suitable place at a distance from the railroad tracks so that the vibration of trains will not destroy its foundations. The monument was erected several years ago to commemorate the memory of the hero in the battle of Little Big Horn River, who was the most famous of Monroe County's native sons. The bill has passed the House.

Elmer Hoage, 62 years old, driver of a school van, is dead from injuries suffered a week ago, when he saved a score of children from being killed by a runaway team at Freeland. Hoage leaped from his seat and tried to stop the horses. He prevented them from crashing into the children's van, but was hurled to the ground and trampled beneath the horses' hoofs. His head and neck were terribly lacerated. He leaves a daughter, Mrs. John Eklund, wife of the keeper of the county farm, and two sons.

Mrs. William G. Hudson, of Ludington, who less than two weeks ago celebrated her eightieth birthday and last December observed her fifty-fourth wedding anniversary, died last week. Her husband was postmaster at Ludington 12 years, and is a past grand master of the Grand Lodge of the Grand Council Royal and Select Masters of Michigan. Mrs. Hudson, a resident for 50 years coming from Marquette after her marriage, was born in the Methodist Episcopal church.

High school students from Battle Creek, Grand Rapids, Eaton Rapids, Marquette, Marshall, Pigeon Lake and Lansing, competed at Lansing last week for the shorthand and type writing championship of District No. 1 of the Michigan Teachers' association. More than 75 boys and girls were entered. The winners will meet the champions of the 17 other districts in the state at the Western State Normal, Kalamazoo, May 21.

Broken hearted because of the death of his parents, Mr. and Mrs. Gilbert Warner, each 95 years old, Elmer Warner, 71, of Grand Rapids, a bachelor and their only son, wants to die. His mother and father died within a few hours of each other. Warner was a Civil War veteran. He is tried near here in 1915. His mother was a cousin of Horace Gray, journalist and an inveterate leader.

The village of Carlin again was perched by fire last week, when a flame spread from grass to a lumber pile and the roofs of several buildings. Women and the children were hurried to safety with wet blankets and many were rescued. When the fire broke out, the church bell was rung to summon aid.

Winning four first one second and two third places, Osaaso Hild, a young competitor in the state chess championship tournament, defeated all his opponents in the district championship tournament. He is a student at the University of Michigan.

John S. Noel, of Grand Rapids, has been elected to membership on the national council of Boy Scouts of America. Noel, as a leader of the "Boys' club" was instrumental in obtaining a scout lodge for the boys on Strawberry Creek near Comstock Park.

A shipment of 12,000 young trout left the Michigan Agricultural college at East Lansing last week for Grand Rapids. The trout were ordered by representatives of the Kent county road commissioners for planting along the county highways.

Falling from a third-floor window when a chair fell on him, a young man, 18 months old Robert, of Flint, escaped with a fractured left leg. He landed in the alley below.

Government looks at Sault Ste. Marie were opened to navigation last week.

The limited number of a day's catch of fish in Grand Traverse and the neighboring counties will be 20. The limit set by the state is 25.

The stadium at M. A. C. now is assured as the result of the favorable vote by the senate. The bill is the result of a suggestion by Governor Groesbeck and provides for a loan from state funds of \$160,000 which is to be repaid in amounts not less than \$10,000 per year beginning December next year.

John Bacon, junior literary student in the University of Michigan, whose home is in Chelsea, has been appointed managing editor of the Chimes, a student publication. This was one of the appointments unfilled when the other publication appointments were made.

Centerville high school won first honors at the annual oratorical and declamation contest of St. Joseph county. Constantine was second, Three Rivers was third, and White River was fourth.

LANSING LETTER

(By W. L. Cannon)

LANSING, MICH.

The regular session of the Michigan legislature for 1923 has come to its end, but it accomplished the finish more by reaching the date set for quitting business than it did by cleaning up its legislative program. Despite the fact that it adopted a large number of laws, probably striking the average in that respect more dissatisfactory has been expressed over what this body of lawmakers had left undone than has marked the close of any session in the last twenty years. The better feeling stirred up in the fight during most of the four months of the legislative session on the gasoline tax bill was in evidence right down to the last day. Heated debates came on with great suddenness in the final week over unexpected matters. In one house argument Rpp. Pat O'Brien, of Iron River, was given the lead by Rep. Lloyd Little, of Ionia, during a debate over an insurance bill. Later Rpp. O'Brien apologized for remarks that stirred up Rep. Little so completely. Not to be outdone, the senate also heard the "short and snappy" charge fired twice at Senator Arthur Wood, of Detroit, during a debate over a bill to award compensation to Mrs. G. A. Ferris, of Marquette, whose husband was killed years ago in a Jackson prison riot while he was serving as a guard. Senator Hurley, of Jackson, first branded a statement of Wood's as a lie and when Senator Harry Whitely, of Owosso, tried to act as peace-maker he also was drawn into the argument and finally passed the lie to Wood also.

Wayne Members Protest. Many Wayne county members, and those in which Wayne felt an especial interest, gathered in the last week's grand and not a day passed but what there was a roar from the Wayne delegation over some measure that it did not like. A written protest was lodged by the Wayne house delegation over the failure of the re-apportionment committee to present a bill rearranging the house membership, the protest formally going into the record. Some of the members of the Wayne delegation refused to sit in the legislature at all as a protest, but the cooler ones advised their friends to calm down. Wayne made vigorous protest too on the Lee bill to improve highways with city car systems, branding it an attack on Detroit's home rule rights. The bill had passed the house with an amendment by Rep. Stevenson, of Detroit, that was thought to be a fair compromise. The city's interest, but Detroit officials did not agree with the compromise and made every effort to stop the bill in the senate. They failed, the bill came through with votes to spare. Most Detroit members of the house did not come by the city officials who protested against the bill by the senate, which thing to their belief the Stevenson amendment made the bill safe. A couple of other bills that went through had the Wayne members fighting with each other. One of them raised the salaries of Wayne county judges and court reporters. The other reorganizes the state courts so that they can handle cases involving up to \$500 instead of the present \$25 limit, and leaving the court and superior courts' supporters. If the bill declares that bringing such relief to the circuit court of the county, which opponents held that it merely would let the city make money for main.

Limit Bill Killed. The senate killed the Watson tax bill that had passed the house with the support of most of the members who were in the so-called "taxing bloc." The principal objection to this measure was that it allowed only for two percent increases in taxes and this was regarded as not sufficient in any growing city. The senate also killed the Warner bill providing that highway contractors supply bonds to cover the cost of maintaining roads constructed by them. Senator Corbally, who led the fight on this bill, held that it would permit contractors to place fancy prices on maintenance work that agencies can do for themselves at cost.

One of its final acts on a bill of its own was the taking of a strong stand by the house for the removal of tax exemptions on bonds. This much discussed subject has figured largely in the tax debates during the session, both in and out of the legislative halls, and was one of the recommendations made by the tax inquiry commission to the present legislature. The house stand was taken in connection with the vote on the Lennon bill to levy a 5-mill annual tax on foreign bonds and on the Towne bill to levy a 3-mill tax on domestic bonds. The vote on the Lennon bill was 76 to 6 and on the Towne bill it was 68 to 6.

The house sent into the senate Senator Condon's bill to bar firearms from the possession of aliens, to suspend existing permits after December 31, and to provide for a loan from state funds of \$160,000 which is to be repaid in amounts not less than \$10,000 per year beginning December next year.

Weight Tax Bill Passes.

The big remaining bill in the senate when it started its own cleanup work was the Smith weight tax bill for motor cars, designed to substitute for the defeated gasoline tax bill in providing funds for the state highway department. After a hot fight the senators put their approval on the Smith bill by a vote of 24 to 6 and sent it over to the house, where the taxation committee and its gasoline bill majority were waiting for it. Speaker Welsh gave the committee a jolt, however, when he referred the bill to the transportation committee instead. The senate passed another big bill when it approved the measure offered by Senator Walter H. Hayes, of Detroit, providing for the acquisition of water power property by corporations through condemnation proceedings when the corporation holds 75 percent of the needed property. The bill is said to be desired by Henry Ford as a means of completing a project for a power plant and factory at Ypsilanti. The senate also adopted the Smith revised election law code, which makes a number of changes in the election laws of the state, the most discussed one being that which moves the September primaries back to June. The entire code covers 300 pages and with the house already on record as opposed to a change to a primary convention the expectation when the code went over was that it had very slight chances. The preliminary plan had been contained in a bill offered by Rep. Baxter, of Kalamazoo, and it found only 33 supporters in the house to 20 opposed.

Special Session Foreseen. Talk of a special session of the legislature during the summer or fall was rife in the closing days of the session, especially over the failure of the lawmakers to have a redistricting bill in shape to put through by which the seats in the senate and house would be apportioned anew on the basis of the 1920 federal census. Wayne county members were wrathful over the failure to give their county increased representation and some were not even disposed to await action by Gov. Groesbeck, a Detroit, in calling a special session. They declared that they would bring up a reapportionment bill through the medium of the initiative and have it voted upon by all of the people. Such a vote could not be taken until November, 1924, however, and the constitution affects a reapportionment in the legislature at all as a protest, but the cooler ones advised their friends to calm down. Wayne made vigorous protest too on the Lee bill to improve highways with city car systems, branding it an attack on Detroit's home rule rights. The bill had passed the house with an amendment by Rep. Stevenson, of Detroit, that was thought to be a fair compromise. The city's interest, but Detroit officials did not agree with the compromise and made every effort to stop the bill in the senate. SPAN COUNTRY IN 27 HOURS

ARMY OFFICERS PILOT PLANE IN FIRST NON-STOP FLIGHT ACROSS U. S.

YEAR'S EFFORT IS SUCCESSFUL

Distance Flown is Approximately 2,700 Miles—World Trip Is Planned.

San Diego, Cal. Today it is but a single span across the continent. With the arrival at Rockwell field, near here, of the army monoplane T-2, piloted by Lieutenants Oakley G. Kelly and John A. MacReady, the first nonstop flight across the United States was completed. The time from Hempstead, N. Y., to San Diego was 26 hours 50 minutes and 48 25 seconds.

The grind began Wednesday at 12:30:33 p. m. Eastern standard time. The distance is estimated at approximately 2,700 miles. The transcontinental flight was the culmination of more than a year's effort by army officers in the air service. It was conceived by them when the project was first suggested as a preposterous idea both from an engineering point of view and physical endurance of the pilots.

An official report setting forth the study made by the air service in preparation for the flight was made public last week. It points out the material advantages both commercial and military—attendant upon the successful accomplishment of the flight. In the point of national defense, the report says, a nonstop transcontinental air voyage indicates the feasibility of transporting mail, messages, equipment or any other vital necessities from one coast to the other in an incredibly short space of time.

The historic flight began at Hempstead, with Kelly in the pit. The T-2 cleared the hangars at the end of the flying field by inches, nosed up for elevation and turned its blunt nose toward Rockwell field. It did not stop an inch short of its goal. The aviators hardly had made their record before they were laying plans for a more extended flight, one around the world. This they hope to attempt next year, they announced in a statement last week.

Still another cable will be laid from the Azores to the continent of Europe in the near future. In making this announcement, Mackay explained that the new cable with its greatly increased speed and capacity would supply communication facilities between the United States and Europe the equivalent of at least two of the present cables.

KIDNAPED BOY FOUND IN CABIN Captors Flee After Leaving Child in Cottage With Woman.

Schenectady, N. Y.—"Hello, Mam—I'm all right." Those words in a boyish voice told Mrs. Alexander, wife of E. F. W. Alexander, chief engineer of the Radio Corporation of America, last week that she is soon to see her six-year-old son, Yerner, who was kidnapped from his home here.

Yerner telephoned his mother from Watertown, where he is in safe keeping, after being rescued from a cabin on the Indian river, near Theresa, where his abductors had hidden him.

The boy was found by Bert Jarvis, Theresa, Jefferson county, boat liver, who was living with an elderly woman named Grinnell in a cottage buried deep in the woods along the Indian River.

TIKHON IS BRANDED A TRAITOR All-Russian Congress Deposes Patriarch—Indorses Soviet

Moscow—The All-Russian Church congress Thursday, by unanimous vote, deposed the Metropolitan Tikhon, patriarch of Russia, who is facing trial on a charge of resisting the Soviet government.

Tikhon was denounced as a traitor in resolutions adopted by the congress. His patriarchate was ordered abolished. The resolution declares that the Soviet government is the only one in the world which is fighting capitalism, condemns counter-revolutionary acts, including those of Tikhon, lifts the ecclesiastical anathema from the government and denounces Tikhon as a traitor to the church.

Tikhon, by the action of the congress, becomes an ordinary citizen, and his name becomes Andre' Balaev.

GEN. EARL B. STEWART

Lansing—Brigadier-General Earl B. Stewart, commander of the Michigan National guard, and member of the public utilities commission, died suddenly at his home here last week. General Stewart, who was 51 years old, has been identified with the Michigan National guard for 20 years. He was a veteran of two wars and saw service on the Mexican border. He served with the Red Arrow division during the late world's war.

NEW ATLANTIC CABLE PLANNED

New York to London Wire To Be Twice Capacity of Present Line. New York, Clarence H. Mackay, president of the Postal Telegraph Commercial Cable System, announced that his company has completed contracts for a new cable between New York and London, which will be laid by August 1.

The new cable will be the largest ever laid in the Atlantic and will have a capacity of twice that of any cable now in the service between the United States and Europe. The route of the new cable will be from New York to Nova Scotia, a distance of about 1,000 miles, and from Nova Scotia to the Azores approximately 1,750 miles, making a total of 2,750 miles of cable to be laid on this stretch. At the Azores it will connect with a cable already laid and which in turn will connect with a new cable of 250 miles, also to be laid this summer, from Iceland to England.

Still another cable will be laid from the Azores to the continent of Europe in the near future. In making this announcement, Mackay explained that the new cable with its greatly increased speed and capacity would supply communication facilities between the United States and Europe the equivalent of at least two of the present cables.

Another New Settler.

On Tuesday a new settler arrived at Roscommon with the determination to stay. His location was all selected; in fact, friends were looking for him. He is a young fellow, only four years old; yet he made the trip all by himself. It may be that his noted family connections caused him to be looked after especially well on his journey.

He is to make his future home on the Frank E. Love farm, on the trunk line between Grayling and Roscommon. As you pass the farm this summer, you may see him gadding about, happy as a lark. He will be worth looking at, for this young registered purebred Holstein bull calf is from a sire whose mother gave 32 pounds of butter in seven days.

Mr. Love is to be highly congratulated for his progressiveness, which will greatly improve the stock for miles around. It will be remembered by many that Mr. Love has a very large cow calf, which was sold to be followed by a team of purebred cows this summer.

What Ails Your Garden?

If your garden has not been doing right, that trouble can be corrected. The things suggested below are not guesses; they are facts. If you are not doing well in your garden, try these things.

In cleaning up this spring don't burn the leaves; spread them thin on the garden, for the soil must have organic (vegetable) matter decaying in it to do its best. Most gardens of this town could be kept perpetually fertile applying the wastes of the home—the leaves, grass, wood ashes, and refuse from out-houses, and a little ammonium sulphate and acid phosphate, each year. Apply a thin coat of stable manure if you can get it. Many who have applied stable manure tell me that the yields of the garden are still disappointing. This is because the stable manure does not give to the soil the lime, and acid phosphate and potash in which the soil here is naturally deficient, and which plants must have in order to grow.

So, I have urged the saving and application of wood ashes, because they are nearly half lime and are extremely rich in potash. Dust ashes on after garden is spaded or plowed.

The soil still lacks phosphorus. Get it by buying a bag (125 pounds) of acid phosphate for about two dollars. Dust this on top, after ashes are worked in, at rate of two to three pounds per square rod, and work in.

If no business place here keeps acid phosphate, drive to Grayling and get a sack at the farmer's warehouse by the depot. It will be enough for your garden for several years.

Nearly every one in town should use more ammonium sulphate for lawn, garden, bushes, or strawberries, or fruit trees. It is no more disagreeable to handle than granulated sugar, and costs little. Have the Barrett Company, Medina, Ohio, send you one of these

5 pound bags for 35 cents plus parcel post.

10 pound bag for 60 cents plus parcel post.

25 pound bag for \$1.25 cents plus parcel post.

Ascertain the parcel's post cost at Post Office and include it with money order.

For a little dab of lawn two rods square, and a few stunts a five-pound sack is enough; for the stuff is very

strong. I will be glad to suggest how much to use and how to use.

These Two.
So, each householder should arm himself with a sack of acid phosphate and a sack of ammonium sulphate. Should any be left, it will be good next year if kept dry.

Let's tone up these lawns, shrubs, trees and gardens, so that tourists will marvel at the beauty of the place.

The farmer who does not thoroughly reclaim his seed oats and atomize on some formaldehyde, at rate of one pint to 50 bushels of grain is working against his own interests.

Seed Corn.
Test. Don't guess. The farmer who fails to test his seed corn in the house, but waits for the poor stand in the field to show him that the seed is poor, is working against his own interests. There is too much of that style of farming done.

Soy Beans.
The farmer who fails to sow soy beans liberally is not fore-sighted and provident. What are you going to do for hay next winter? Go without, buy it, or raise it? Those who do not have an abundant acreage of clover or alfalfa should by all means, sow a lot of soy beans. Plant about first of June.

But for hay, latter part of August. They make a cow hay, rich in protein, that ranks with clover. They grow on acid soil where clover or alfalfa would do little or nothing and fizzle out. They grow on a soil too poor to give satisfactory growth to June clover, Alsike clover or alfalfa.

My best suggestion is to put in a big acreage of corn and soy beans to feed several good cows next winter. They feed in a steady income.

Those Seed Potatoes.
The farmer who does not select the very choicest and best of his potatoes for this year's seed, and then soak them in corrosive sublimate, is doing far from the best.

I would suggest that you take your seed to go to Jay Townsend's, just east of Grayling, and not one to ten bushels of his beautiful certified Rural Beauty for seed. They are from stock that has been well selected for several years. Hill selection increases yield. Mr. Townsend is asking only 75 cents a bushel for this seed. They are beautiful, large potatoes.

Runt Potatoes.
The poor little runts so often used by farmers for seed are pitiful. Get a start with new seed.

To reach Mr. Townsend's, go to Grayling, and go directly east on the main business street, until you come to the house just east of town. Stand still and you will find him.

The Reason.
The reason that practically all seed potatoes should be soaked in corrosive sublimate is because this seed is so full of disease that it will kill the plant and cause the top to die, and the potatoes in the soil to rot.

The best potato growers treat their seed. There is no disease-free potato. Yours are not such.

Seed Treatment of Potatoes—How to Treat Potatoes, by G. H. Coons, Michigan Agricultural College.

How to Treat Potatoes.
Potatoes are treated by cooking them for from 12 to 14 hours in a solution of 4 ounces of corrosive sublimate dissolved in 30 gallons of water. The solution must be strengthened from time to time as explained below.

Corrosive sublimate (mercuric bichloride) is deadly poison and the solution used for dipping is poisonous. Use every care to prevent accident.

Important Suggestions.
1. Use soft water.
2. The solution weakens with use because the corrosive sublimate is carried out of solution condensed on the potatoes. Here also condenses the chemical and takes it out of solution. Cook a new batch of the corrosive sublimate out of the treating solution. With clean potatoes dumped in the solution, probably from one-tenth to one-half of the corrosive sublimate is removed with each batch. With potatoes treated in bags, 1/4 or more of the corrosive sublimate is removed with each batch.

3. Therefore, the farmer must use his judgment in strengthening the solution. With clean potatoes treated directly in the vat or barrel from which the dirt has been cleaned off, add 1 ounce for each 50 gallons of liquid after each second batch is treated. When the solution gets very dirty make up a fresh solution.

4. With dirty potatoes, treated in sacks, add 1 ounce of corrosive sublimate after each bath is treated in order to keep up the strength of the solution.

5. One half pound of corrosive sublimate will treat from 15 to 30 bushels, depending upon the freedom from dirt, sacks, broken, rotted potatoes, etc.

6. Do not use metal containers. For treating large quantities use a vat or cement tank; for smaller quantities use barrels—sugar barrels—well soaked, make a cheap treating outfit.

7. Treat before cutting.
8. One half hour is long enough to treat, but 1 1/2 hours soaking does not damage the potatoes. Longer soaking is not safe.

9. After treating and cutting, potatoes must either be planted at once or kept cool, dry and well-aired.

10. Dissolve the corrosive sublimate in a glass jar, using hot water. A tablespoonful of vinegar will speed up the dissolving.

11. Again—remember the extremely poisonous nature of corrosive sublimate.

A narrow mind is one that has not had wide experience.

YOUR OPPORTUNITY.

BRIGANDS KILL
TWO CAPTIVES

RANSOM DEMANDED FOR RELEASE OF PRISONERS AND PARDON FOR BANDITS

YANK TROOPS CHASE OUTLAWS

Two Army Officers in Toils of the Band—Women Freed—Exhausted.

Peking—The Chinese bandits, who in their daring holdup of the Peking express train near Suichow Sunday, kidnapped the passengers, many of them Americans, have demanded a ransom of \$1,000,000, in addition to a pardon for all involved, according to advices received here.

The diplomatic representatives of the foreign governments are conferring on what action to take. United States Minister Schurman, who went to Tsinanfu is keeping in touch with the diplomatic conference by telegraph.

Reports that the bandits have released all their women captives have not been fully confirmed. It has been reported that the fleeing bandits used their prisoners as shields when fired upon by soldiers.

Unconfirmed reports have been received here that the Suichow train outlaws have killed two of their prisoners.

Approximately 20 foreigners, many of them Americans, including a prominent newspaper publisher and two American army officers, Monday night were in the hands of a gang of Chinese brigands.

Advices received here from several sources indicate that the women among the white passengers were released, but only after they had been beaten and spat upon by their captors in an effort to make them keep up with the fast moving cavalcade as it traveled through the darkness away from the scene of the holdup.

Several of the women are said to have dropped from exhaustion and the outlaws left them where they fell refusing to permit their husbands to stop and render assistance.

Washington—Joint international intervention in China to rescue the foreigners seized by brigands and to assure future safety of foreigners may be undertaken, it was learned Monday night, if prevailing fears of the situation in the Oriental republic are confirmed.

American troops stationed in China will participate in any international military operations undertaken and may already have been dispatched at the instance of Jacob Gould Schurman, the American minister, to the rescue of the captured Americans.

The situation, it is admitted, is rendered more serious by the fact that a British subject is reported to have been killed.

In view of the well known vigorous policy of the British government in punishing outrages against its subjects, it is thought likely that the British diplomatic representative in Peking will press for drastic action.

GERMAN OFFER IS TURNED DOWN
France and Belgium Reject Proposal of Reparations.

Paris—The French and Belgian governments, after an exchange of informal views, are unanimous in rejecting the new reparations proposals put forward by Chancellor Cuno of Germany.

The proposals are held to be so inadequate as to offer not even a basis for negotiations, first in view of the lack of guarantees for payment, and second because of the smallness of the sum offered.

The Belgian ambassador, Baron de Ghaiffier d'Hestroy, called at the foreign office with his government's decision, and the French cabinet unanimously declared against the proposals within a few moments after Premier Poincaré had read to the ministers his analysis of the note.

The procedure now, it is understood, will be for each government to make its own reply, but they will in effect be identical.

In this they will follow the course pursued in notifying the German government that they were going to occupy the Ruhr.

The indications are that the French government will not collaborate with the British or Italian governments but, jointly with the Belgians, will notify those governments of the contents of the reply to the Germans.

The French note leaves no doubt regarding France's determination not to brook mediation, but to recover her due. The reply is said to explain the reasons for refusal to negotiate by merely refuting the essential passages of Chancellor Cuno's offer with out detailed explanation.

Makes War On Beavers.
Brockville, Ont.—Beavers have become so destructive along the St. Lawrence river that owners of islands in Canadian and United States water have been given permission by the Dominion government to exterminate them on the Canadian side of the boundary. The presence of the beaver was revealed last spring by the number of fallen trees that had been gnawed through at the base. They are protected by game laws on the New York side.

EIGHTH GRADE EXAMINATION.
The Eighth Grade examinations will be held May 16, 17 and 18.

On Wednesday the seventh grade will write on the subjects of Physiology, Geography, Penmanship, Orthography, Spelling and Reading. Students that pass will not have to write these subjects the following year.

This year as usual the Eighth grade will write on all subjects May 17 and 18. The examinations will be conducted in Grayling and Frederic.

TRUSSED FOX IN HAY SHEAF

New Zealand Farmer Reports Occurrence Which in Many Respects is Remarkable.

A New Zealand farmer in Pinkerton Plains reports the unique feat of trussing a fox in a sheaf of hay. The farmer was working his binder in a heavy crop, and was frequently in difficulties owing to the density of the cut. He therefore did not take much notice of a severe bumping and jolting of the machine, until he saw something dark pass under his feet going through the machine. The difficulty cleared itself and the binder went smoothly, but the farmer thinking over the matter, thought he had caught a rabbit, and got down to investigate. He found that the machine was all right, but on the apron were splashes of blood, which caused him to go back to some sheaves that had been thrown off the carrier. To his surprise he found a fox, securely trussed up in the hay, the binder twine encircling his neck. The animal had both hind legs sheaf, one close up to the thigh, where the knives had caught it, presumably asleep in the crop.

Machinery for South Africa.

Imports of mining machinery into South Africa in 1921 exceeded those of 1913 by more than 20 per cent, and show an appreciable increase over those of the intervening years, says the industrial machinery division of the Department of Commerce.

The most notable feature shown by these imports statistics is the expansion which has taken place in machinery imported from the United States. In spite of the fact that there was a decided drop of imports from the United States in 1920, as compared with those of 1919, the salient fact is that in 1921 the manufacturers of the United States supplied more than 35 per cent of the mining machinery purchased by the mines of the Union of South Africa, which is more than twice the amount purchased from the United States in 1913.
